Gunnell Engineering Ltd. / SepticDesign.ca

Gunnell Engineering Ltd. is a rapidly growing municipal and environmental engineering design firm, specializing in rural servicing, with the primary focus on septic system design for both OBC and MOE projects. In addition, services include hydro geological investigations, well testing, site plans & lot grading, and obtaining permit approvals. Environmental concerns dictate the need for continuously evolving designs for new facilities, requirements to improve existing systems or replacement of failing septic systems. Our services, provided to property owners, septic system contractors, builders / developers, building designers, architects and engineering firms, also involves consideration of requirements from various municipalities, conservation authorities and approval agencies, to enable us to provide the most environmental and cost effective design solutions available in today's marketplace. We offer a competitive salary along with a benefits package to successful candidates.

Positions Available:

- Septic System Designer
- AutoCAD Technologist / Draftsperson / C.E.T.

Work Location: The job locations are in Newmarket, with travel to various site and projects in southern Ontario.

Description: As valued member of the Gunnell Engineering team, you will be actively involved in field investigations, design, preparation of drawings and specifications, and onsite inspections. All work is to ensure compliance with building code requirements and professional standards. Work will include report writing, and liaison with clients and service providers. Opportunities will exist for further advancement, based on work experience and skills.

Qualifications: As a future member of our team, you have experience with septic system design or with a consulting engineering firm, with professional and technical training in the fields of onsite wastewater treatment, rural servicing, civil and environmental engineering. Good verbal and written English skills, AutoCAD drafting, familiarity with MS Office, self-motivated and the ability to work within a team environment are all required skills. A minimum two years work experience is required.

Contact: Gunnell Engineering Ltd. at laura@gunnellengineering.com, or phone: 905-868-9400, or fax: 905-853-5734.
