

About OOWA

Established in 1999, the Ontario Onsite Wastewater Association (OOWA) is dedicated to providing access to a large network of Onsite Wastewater Resources throughout Ontario. Our members are at the front line of rural development to support onsite systems as a viable permanent wastewater servicing option.

Together with our partners from the private, public, and not-for-profit sectors, the Ontario Onsite Wastewater Association has been providing information, advice and assistance to Ontario's communities and system owners. Our goal is to further our advocacy through education, information and assistance that helps to improve environmental protection. OOWA's efforts are intended to help protect our valued resources, properties and homes.

OOWA's volunteer board of directors and committees work with government agencies such as the Ministry of Municipal Affairs, the Ministry of Environment and Climate Change, and the Ministry of Natural Resources, participating on technical advisory committees to ensure safe practices are developed and implemented protecting Ontario's environment and health of residents.

OOWA has over 550 members and growing from all over Ontario addressing the most important topics in the wastewater industry today. Members include:

- Installers
- Contractors
- Regulators
- Engineers | Designers | Consultants
- Septic Pumps
- Researchers
- Government
- Manufacturers | Suppliers | Precasters
- Academics/Students
- Inspectors
- Planners
- Service/Maintenance Providers
