

JOB TITLE: SENIOR OPERATOR

Department: Operations

Status: Full Time

Location: Orangeville Hub

Immediate Supervisor: Hub Supervisor

OVERVIEW OF COMPANY

Clearford Water Systems Inc.

[Clearford™](#) is a new kind of water management company, delivering integrated water infrastructure solutions with sector-leading efficiency and reliability. Our diverse team of licensed engineers and operators provide a complete range of water and wastewater services. From conceptual design, regulatory approval, fabrication & installation, to operations and regulatory compliance, Clearford offers everything required for any water infrastructure challenge and takes responsibility for regulatory compliance at every stage.

UV Pure® Technologies

[UV Pure® Technologies](#), a subsidiary of Clearford Water Systems Inc., is a Canadian manufacturer of advanced ultraviolet water disinfection systems with installations in water treatment plants, buildings, and public facilities worldwide. Our [Hallett™](#) products are proven for use in potable, wastewater, and reuse disinfection systems for flows of up to 100 gpm (378 L/min). All UV Pure systems feature our patented [Crossfire Technology®](#) for effective disinfection of even the most difficult water.

UV Pure has earned an Artemis Top 50 Clean Tech Company award, Going Green Global Top 200 award, two Frost & Sullivan Best Practices awards, and a Canadian Drinking Water Association award for innovation.
